THE DELAWARE WILL PAY IN FULL

The executive committee of the Delaware Insurance Company, of Philadelphia, on April 27th last, passed a resolution to pay all San Francisco fire losses in full and this too without the least wincing or hedging of any kind.

Why not! It will have a clean full million dollars in assets left after the San Francisco policies are paid in full.

Seventy years of active business life in fire risks for the Delaware have been full of discouraging episodes but this old company bobs up serenely every time.

SPRING PAINTING

The above is the title of a booklet issued by the Jos. Dixon Crucible Company, 1020 Arch street, Phila., with the view of assisting property owners as well as others in the selection of a paint in several colors out of graphite, which, as a pigment basis for paint possesses more durability than any other thus far discovered. It is to be regretted that graphite paint has not a greater range in colors, for, if it had, there is not the least doubt but that it would eventually supercede all other paints made from the various pigments known to the chemical and commercial world. There is, however, plenty of scope for the use of graphite, for its gray, its olive green and red and black are fixed colors and this is what is most needed outside of durability and for this reason the Dixon paint is preferable for bridges, structural and ornamental iron, barns, fences, shingle and tin roofs.

Architects should keep these facts in mind and get acquainted with the Dixon people as well as with their paints.

It is reported that R. V. Highlands & Co., of 904 Weightman Building, will invite architects to submit competitive plans for an eight-story up-to-date apartment house to be erected on Childs' old mansion site, at the southeast corner of Twenty-second and Walnut streets.

C. M. Wells, architect, Langstroth Building, Main and Chelton avenue, Germantown, is working on plans for a new residence to be built at 5th and Erie avenue for Mrs. A. Branagan. It will be three stories high, 10x64 feet, and will be built of brick, with porches, hardwood on the interior and every modern appointment. Will be ready for bids in a short while.

It will be one-story high, and will contain fifteen rooms, and will have an inner court, 25x35 feet, covered by awnings in summer, and with glass in the winter and steam heated. In the bath rooms the tubs will be set flush with the floor, open plumbing and all modern conveniences. The exterior will be of cream stucco. Work will begin on this structure about July 1st.

Lawrence V. Boyd, architect, Harrison Building, has completed plans and specifications and invited bids for a new residence to be built at Merchantville, N. J., for William D. Weikel. PHILADELPHIA, WED'Y, JUNE 21, 1906

It is to be regretted that the Building Committee of the Philadelphia Young Men's Christian Association does not possess a greater appreciation of the ability, and we may say the genius of our Philadelphia architects. This was strongly in evidence in the fact that but two of our Philadelphia architects were invited to prepare competitive plans for the Association's building, to be erected at 1417 to 1423 Arch street, in this city.

To be sure three other architects were invited, one each from New York, Boston and Washington.

It is hard lines to say the least that while the boodles to pay the bills originally came through the patriotism and liberality of our own citizens, there are but two out of a host of representatives and successful men in their line who merit enough recognition to even enter the race with their competitive plans for a building which is essentially a Philadelphia institution in every particular. We do not know that a single Philadelphia architect is in the least grieved over the thoroughly unpatriotic action of the Y. M. C. A.'s building committee, but it would have been infinitely better had it thrown the doors wide open backed by the wholesome sentiment that this is a Philadelphia association which aims to erect a Philadelphia building, with Philadelphia money and it must be designed by a Philadelphia architect, built by Philadelphia workmen and forever sustained and supported by Philadelphians even unto the end.

ARCHITECTS NOTES

Watson & Huckel, architects, 1211 Walnut street, are working on plans and specifications for the remodeling of the first floor and basement of the Rittenhouse Apartments, at Twenty-second and Chestnut streets for the Weightman Estate.

Architect C. E. Schmerhorn, 430 Walnut street, has prepared plans for

extensive remodeling to 303 South Thirty-seventh street, for Mr. S. D. Lenhardt. The house will be of Colonial design throughout, and equipped with all modern appointments and conveniences. Materials will be red brick, green slate roof. Interior painted pine and mahogany, leaded glass, hardwood floors, gas grates, open plumbing, hot air heating, etc. Owner is taking bids.

Ballinger & Perrot, architects and engineers, 1200 Chestnut street, have completed plans and specifications and invited estimates, due June 26th, for an office and warehouse building, to be erected at 1625 to 1631 Penn avenue, Pittsburg, Pa., for the Bernard Clockler Company, manufacturers of refrigerators. The building will be 80x100 feet, ten stories and basement, and will be fireproof construction throughout. The column, floor and roof construction will be reinforced concrete, also the walls, except the front, which will be faced with artificial stone. Roof covering will be slag. Windows will have metal frames and sash, and be glazed with wire glass. Two tower fire escapes will be provided within the building, provided with special automatic sash. There will be one passenger elevator and two large freight elevators. Above the freight elevator shaft will be a tank tower with two 5,000 gallon house supply tanks and one 20,000 gallon sprinkler tank. Work of excavating for the foundations has already begun.

BUILDING AND REAL ESTATE NOTES

L. H. Focht & Son, contractors, of Reading, Pa., have received the general contract for the Central Storage Building at Reading, Pa. The general contractors are open for sub-bids.

Nyce, builder, 1011 Chestnut street, has started work on an operation of 18 two-story houses, each 16x39 feet, on Fourth street east of Summerville avenue, and 8 two-story houses, each 16x50 feet, on Tabor road west of Fourth street, for S. They will be modern in all their appointments, and cost \$56,750.

At a meeting of the Board of Education, held recently, it was found that all the bids were too high for the erection of the Sixth Division School, at Green and Carpenter streets, Mt. Airy. All bids were rejected and the committee will try and have it built to come within the appropriation.

to heat your residence, however large or small, with HOT WATER, and file a Trust Company's bond for ten times the cost, the same to be forfeited if I fail in any direction.

This means that there shall be more than enough radiation at the smallest possible cost for coal. No leaks, no mistakes, no annoyances of any kind. The boiler to be of the best make.

The responsibility all mine, and the cost no greater because of good work and material.

Yours truly,

JOHN C. F. TRACHSEL,

STILL GROWING

The Hall-Kline Co., 1927-29-31 Market street, has added another branch to its already extensive business.

Architectural sheet iron work in all its branches is the new feature and this company is prepared to give estimates and make contracts, however large, for ventilating, cornice work, etc., in this line.

Among the heavy contracts the Hall-Kline Co. has secured, and which are now in course of completion are the following:

Sixty-five tile bathrooms, Dennis Hotel Atlantic City; forty-six houses, Frank D. Williams operation, Twenty-first and Tioga streets, wood mantels and tile work; eight houses, Frank D. Williams operation, Tioga above Eighteenth street; these houses sell for \$10,000 and \$12,000 each and have extra fine selection of mantels and tiles; seventy houses, John Schmunk operation, Sixth and Rising Sun Lane, wood mantels, wardrobes; seventy-five houses, Charles A. Shertlin operation, Seventh and Ritner streets, wood mantels, tiles, heaters and ranges; forty-five houses, Seward L. It must not be forgotten that this company is extensive manufacturers of wood mantels, wardrobes, etc., as well as dealers in tiles, heaters and ranges, which it is prepared to install in dwellings, hotels, etc.

ARCHITECTS NOTES

John T. Windrim, architect, Commonwealth Building, has completed plans and specifications and invited estimates for a Bell Telephone Exchange to be built at Seventeenth and Diamond streets. It will be three stories high, 62x100 feet, built of brick and will be fireproof. Bids due July 19th. Cramp & Co. and John R. Wiggins & Co. are bidding.

Architect Clarence W. Smith, Asbury Park. N. J., will prepare the plans for the handsome hotel to be erected on the beach front at Loch Harbour, N. J., on property recently bought by a syndicate from Dr. Samuel Johnson. The proposed hotel will be of brick and reinforced concrete, fine interior finish, broad porches, baths, etc. It will contain two hundred and fifty rooms. All modern conveniences will be provided. A large casino, over Deal Lake, will also be erected, with a seating capacity of two thousand. A large salt water pool will be constructed and a number of roomy bath houses. There will also be a building for billiards and bowling and the board walk will be extended from the flume to the Allenhurst line. The estimated cost of the improvements is about half a million dollars.

Architect C. H. Ellis, Bethlehem, Pa., has prepared plans and begun work on a ten-room cottage at Nazareth, Pa., for Mr. Walter Crawford; also plans for a block of four-dwellings at Bethlehem for Mr. W. E. Doster; also for twenty-five dwellings to be erected at Bethlehem for the Bethlehem Realty & Improvement Company; also plans for extensive improvements to dwelling of Congressman G. A. Schneebeli at Nazareth, and plans for four dwellings at same place for Miss Daisy Hummel; also plans for cottage for Miss Dora Geissinger, of Bethlehem, and for improvements to the Palace House, at South Bethlehem, for Mr. C. F. Willis; also plans for extensive alterations to the Palace Cafe for Mr. F. M. Gist, of Bethlehem, and for a hospital building for the Nazareth Military Academy and for gymnasium building, swimming pool, etc., for same school, and for alterations to the chapel.

Mr. W. B. Churchman, of C. T. and W. B. Churchman, 33 South Front street, is one of the trustees of the Mason Estate owners of the property at the northwest corner of Eleventh and Market streets, having a frontage of 50 feet on Market and extending back 175 feet on Commerce street. The site is now covered with small buildings which are used as stores; the occupants of which have been notified that they must vacate on or before March 1st next. It is understood that plans have been made by a local architect and it is said to be John T. Windrim, of Commonwealth Building, for the erection of an eight story business building. It is stated that the proposed building will be of brick and steel structure and will be fireproof. The first and second stories to be arranged for store purposes, while the six upper floors will be left as open lofts, to be subsequently arranged to suit renters.

It is estimated that the structure will cost about \$250,000.

W. C. Prichett, architect, 420 Walnut street, has been commissioned to prepare plans for bank and office building to be built at West Chester, Pa., for the First National Bank of that place. It will be six stories and basement high, built of brick, stone, steel and terra cotta. It will be irregular in shape, measuring 83 feet on Hight and 37 feet on Market. It will be equipped with elevators and have every modern and up to date appointment of a building of its kind. He is also working on plans and specifications for remodeling and building additions to school at Cheltenham, Pa., for the Board of Education of that place. The addition will be two stories high, of stone. It will have plumbing and ventilation, wiring and general interior improvements. He is also working on plans for a new residence to be built at Deery Church, Pa., for Mr. William R. Murrie. It will be two and a half stories high, built of stone and pebble dash and will have porches, hard wood on the interior, tile baths and every convenience and appointment.

1906

JANUARY 1 TO JUNE 30, INCLUSIVE

BUILDING OPERATIONS

AND
TRANSFERS OF REAL ESTATE

6645 new buildings of all kinds, costing \$18,467,458, exclusive of the cost of the land, against 6054 for the same months in 1905, costing \$17,884,194, hence a difference in favor of the present year of 591 new buildings and in the investment of \$583,264.

1327 alterations and additions, costing \$300 and over (only included), \$1,990,500, an increase of 116 in number and an increased investment over last year of \$177,000. Total investment this year up to June 30th, inclusive of \$20,457,958, a difference in favor of the present year of \$760,264.

12,861 Transfers of Real Estate against 10,284 for the same period last year, a gain of 2,577.

The sentiment is general among the architects of this city that the year 1906 thus far has been phenomenal.

Work with them in every line has not only been plenty but they are even now unusually busy and the outlook for the remainder of the year is extremely gratifying; we thus particularize as to these gentlemen because as a fact their success is the key of the situation.

We cannot recognize in the whole situation a single condition unless it be the percentage of the incumbrance on the real estate transfers which can be logically construed as a feature to justify the slightest alarm, and we believe that this statement will hold good up to June, 1908, which will inaugurate the political struggle of the President making period.

The whole country—earthquake sections excepted—is enjoying a degree of prosperity without a parallel, and indeed the probabilities are that the demand for the things we make will steadily increase. The country is growing at a rate away beyond the appreciation of most men and we can see no reason why there should be any let up in this direction.

If the Italian acquisition to the country's population is doing as well elsewhere as in our own city, they can very justly be proud of their record for thrift, energy, cleanliness and law abiding characteristics. As a people they are to be commended and encouraged. They possess a keen appreciation of the value of houses and lots and in contrast with our colored brethren they seem to have accomplished more in the way of progression in a single decade than the dark-skinned man has since Lincoln's proclamation of freedom. The Italians are crowding out the colored inhabitants of the Lombard and South streets section through the simple process of buying the properties occupied by them for many years. They have gained for themselves the reputation of paying their debts promptly and living up to the letter of their business engagements and question it if you please, they have become as a people an important factor in the real estate market all over the country.

Real estate conditions in this city were never better and indeed it is remarkable as to the small number of empty dwellings and while there may be a few more vacants than in June of last year we could not establish it after a prolonged and persistent investigation.

The enormous home building of the present year as a part of the subject merits proper consideration besides which houses that have been built to sell and not to rent should not be regarded in the estimate of vacant dwellings.

A prominent real estate man and builder in the southern section of the city with a rental list of 800 old houses, had but four vacant and out of an operation of 456 new dwellings, many of which were only recently completed, 400 had either been sold or provided with good tenants, and it is singular but nevertheless true that a decided preference was expressed for those renting for \$20 and \$25 per month.

A prominent trust company of this city with a list of about 800 rentals has but 25 vacant, and particular emphasis was given to the statement that those vacant belonged to the estates that have been in shape for years and that the houses were in very bad shape. Two hundred out of the 800 above referred to are located in West Philadelphia, of which only six are vacant as a result of their dilapidated condition. It was also stated that \$50 renters in good repair were in demand.

There may be among our readers those who have different opinions as to the present renting demand, but we insist that such contrary opinions cannot be justly founded on cursory glances or wise-guy gossip. It takes careful investigation to get bottom facts and in this respect we take off our hat to no man.

Considerable inquiry is expressed for small houses in lots for investment, and the prices asked seem to have but very little influence against the disposition to buy.

There is really no room for pessimism. The 12,861 transfers this year voice the sentiment of the public better than anything we can write, for while 1889 was the banner year with its 10,450 new buildings for the entire year, yet our records for that year show that while there were 6,489 new buildings of all kinds erected during the first six months, there were only 8,419 transfers of real estate, or

4,442 less than for the same period of this year.

If this remarkable episode in the history of the real estate business of this city is not convincing as to the value of prevailing conditions, what more can be offered?

Our working people are saving money and while the deposits in our savings fund institutions are heavy the withdrawals are about equally so, because as we understand it the people are looking for better than three per cent. investments and are buying real estate and perhaps mortgages as well as bonds to a considerable extent. Trust funds are plenty for five per cent. mortgages, while there seems to exist a dearth of commercial and collateral money, the result of crop moving as well as the San Francisco disaster.

There is a peculiar restlessness observable among the skilled workers identified with house building. The tile setters have only about completed their fantastical demonstration with the view of exacting more compensation which was refused when the plasterers caught the infection and now demand an increase of \$1.00 per day, or \$5.50 for eight hour labor.

We are assured that they will not get it, but the strike may prove a bad break in construction work as well as cause a serious loss in this year's record of new buildings.

Our tables are unusually valuable at this time because the first six months of 1899, the banner year, is as a fact beaten in every direction. In the first place there are 156 more new buildings of all kinds and there are 198 more dwellings of all kinds and above all there are, as has already been stated, 4,442 more transfers. Hence it is plain that a stronger buying sentiment exists which largely eliminates the speculative building tendencies that prevailed in 1889, the building of the present year being performed on a better supply and demand basis.

There are 5605 two-story dwellings, including stores and dwellings, this year against 5147 for the same months last year, a gain of 458. The prominent gains by wards are as follows:

The Twenty-second ward gains 66; Twenty-fourth 25; Twenty-sixth, 143; Twenty-eighth, 58; Thirty-ninth, 209; Fortieth, 486; Forty-second, 114.

The Forty-third, the new ward which was taken from the Thirty-third, is accredited with 218.

The losses of importance are the Twentieth, 17; Twenty-first, 32; Twenty-third, 59; Twenty-fifth, 87; Twenty-seventh, 12; Thirty-third, 400; Thirty-fourth, 231; Thirty-fifth, 20; Forty-first, 4.

It will also be seen that there are 700 three-story dwellings this year against 541 for the same period of last year, a gain of 159.

The important gains by wards are as follows: Twenty-second ward gained 70; Twenty-third, 6; Twenty-fourth, 33; Twenty-seventh, 55; Twenty-eighth, 38; Thirty-fourth, 9; Thirty-seventh, 19; Thirty-ninth, 30; Forty-first, 8; Forty-third, 43.

The losses are the Twenty-first, 22; Twenty-fifth, 8; Twenty-ninth, 3; Thirty-second, 15; Thirty-third, 36; Thirty-fifth, 6; Fortieth, 74; Forty-second, 12. It will be seen that West Philadelphia, composed of the Twenty-fourth, Twenty-seventh, Thirty-fourth and Fortieth wards, gains in two-story dwellings 268, while in three-story dwellings there is a gain of 23.

West Philadelphia is responsible for 2747 two-story dwellings and 215 three-story, a total of 2962 against a total for the same months of last year of 2671, a gain of 291.

There are no office buildings over two stories this year. There is 1 more church than last year, 8 less school houses and 17 more miscellaneous buildings. There are 16 more stables and a loss of 5 stores that are not included in stores and dwellings.

The total of industrial buildings erected this year is 94 against 83 for the same months of 1905, a gain of 11, but the gain in the investment is only \$33,689. Warehouses are 2 less this year, dye and dry houses are 3 less, factories gain 7, engine and boiler houses gain 2, breweries and bottling houses gain 3, foundries and shops gain 4.

The 12,861 transfers of real estate this year show a mortgage incumbrance of \$29,917,066.08 or 60.1 per cent. In the first six months of 1905 it was 51.4 per cent.; in 1904, it was 46 per cent.; in 1903, 34.4 per cent.; 1902, 39.1 per cent.; 1901, 39 per

cent. and in 1900 it was 39.7 per cent. The transfers also show ground rents amounting to \$360,562.32, which on a six per cent. basis, represents a further incumbrance of \$6,009,372 or 8.9 per cent. additional. Hence the total incumbrance on the properties transferred this year is 58 per cent., while last year it was 60.2 per cent.

The sales of real estate at auction this year amounts to \$2,732,155.19, while the mortgage incumbrance amounts to \$1,800,000, and the ground rents amount to \$1,741.45.

We give below the table of transfers of real estate since 1889:

DEAR SIR: I WILL CONTRACT
to heat your residence, however large or small, with HOT WATER, and file a Trust Company's bond for ten times the cost, the same to be forfeited if I fail in any direction.

This means that there shall be more than enough radiation at the smallest possible cost for coal. No leaks, no mistakes, no annoyances of any kind. The boiler to be of the best make.

The responsibility all mine, and the cost no greater because of good work and material.

Yours truly,

Charles J. Brooke, architect, 14 South Broad street, is working on plans and specifications for a handsome new residence, to be built at Wildwood, N. J. (owner's name withheld). It will be three stories high, built of brick and stone, with porches, hardwood on the interior and every convenience and appointment.

The T Square Club, of this city, will hold their annual exhibition in the galleries of the Academy of the Fine Arts, at Broad and Cherry streets, in December next. All inquiries in regard to this exhibition may be addressed to T Square Club, C. L. Borie, secretary, 251 South Fourth street, or to the Secretary of the Pennsylvania Academy of the Fine Arts, John E. D. Trask, Broad and Cherry streets.

Milligan & Webber, architects, 520 Walnut street, have completed plans and specifications and invited estimates for a factory building to be built in this city (the exact location withheld). It will be six stories and basement, 105x46 feet, and built of brick, terra cotta and have all modern appointments. Bids due August 3rd. Cramp & Co., George A. Glenn & Co., Harry Gill & Co. and Metzger & Wells are bidding.

The plans submitted by Horace Trumbauer, architect, Land Title Building, for the erection of the new \$500,000 building of the Central Branch Young Men's Christian Association to be built at 1417 to 23 Arch street has been accepted by the Building Committee from a number of plans submitted. BUILDING AND REAL ESTATE NOTES

Elder & Owen, builders, 925 Real Estate Building, have started work on an operation

of seventy-two two-story porch front houses, to be built on the north sides of Alder and Cecil streets, between Walnut and Locust streets. The cost will be \$137,800.

Lynch Bros. and Metzger & Wells, builders, have plans posted for a manufacturing building, to be built at 1516-20 Callowhill street for George H. Sherwood. It will be six-stories high, 48x100 feet, and be built of brick and have the usual up-to-date appointments. Bids due August 2nd.

William R. Dougherty, builder, 1604 Sansom street, has started work on a one-story blacksmith shop, 25x65 feet and interior alterations to the Manual Training School at the northeast corner of Twelfth and Locust streets. The cost will be \$17,500. Plans by William Cook, architect for the Board of Education.

The revised bids submitted to the Building Committee of the Union League for its proposed addition, have been largely in excess of the \$50,000 appropriated for the purpose. The lowest bid was that of John Wiggins & Co., \$503,250. It is stated that nothing will be done in regard to this addition until next fall.

Henry P. Schneider, builder, Ninth and Tioga streets, has started work on an operation of fifty two-story porch front dwellings, to be built on both sides of Hunting Park avenue. He is now receiving sub bids on all work necessary for the erection.

There is no truth in the report that plans have been prepared for a 15-story building, to be built at the southwest corner of Twelfth and Market streets for the Continental Title and Trust Company. The present tenant has considerable time yet before their lease expires and nothing will be done until the subway is finished.

Mr. Christensen's process for cleaning and repointing old brick fronts, that have not been painted, make them look like new fronts.

Joseph B. McCloskey, builder, 211 N.W. street, has been awarded the contract to build the store and apartment house at Fort-seventh and Baltimore and Cedar avenues for Dr. Graham Tull. It will be a four-story structure with exterior walls of stone, terra cotta and brick and will measure 48x100 feet. On the first floor will be six stores and the upper floors will contain fifty rooms divided into suites of two, three and four rooms, with baths attached and will have all modern improvements and cost \$40,000.
